## INDIANS OUT TO SCALP DODGERS

Cleveland, Ohio, Oct. 8.—Safely encamped upon their own reservation, the Cleveland Indians, winners of the American Dattle for world series baseball honors here imcorrow. The Brooklyn Nationals, conquerors of the Speaker tribe in two out of three of the castern games, are likely to find their rivals a, far different combination from that which fell twice before the attacks of the Robins at Ebbets field.

Cleveland fairly radiates confidence tonight and the Indians cannot fail to be inspired to greater baseball play by the calm assurance and backing which refuses to concede further defeat for the home team. Every atom of world series atmosphere so utterly lacking during the first three contests in Brooklyn, has reappeared at the western end of the circuit. Cleveland and its citizens are prepared to show the baseball world what home backing and rooting will do toward uplifting the players' morale and putting a winning punch into the attack of the United States of America. The honor of winning a major league pennant and the opportunity to compete for the championship of the baseball universe is not a club affair. It is a community and civic matter of pitice and matter o

verse is not a club affair. It is a com-munity and civic matter of ptide and co-operation. Consequently Cleveland has seen its duty and is doing it in a manner befitting the responsibilities of

The Cleveland club must win the game tomorrow. On the diamond the average citizen cannot help, but up to the moment the umpire calls "Play ball" he can so charge the atmosphere with winning psychology that defeat for the inning psychology that detect for the invaders is but a matter of routine performance. This is his duty as he sees it and it is being done with a thoroughness and efficiency which bodes ill for the Robins unless they are impervious to the mental blight of Old Doc Psychology.

Cleveland has concentrated her mind upon winning and for fear that the community mind may not bear overwhelmingly upon Uncle Robbie and his cestern upstarts, the entire Great Lakes and middle western section is rushing to its assistance. At least that portion of the male population is which believes or hopes it has an outside chance of hole accommodation or foothoid inside the Indians' ball park. Hotels are swamped by the rush of fans from other cities and ticket speculators take their lives in their hands every time they show the corner of a seat coupon peeping from their nocket. gy. Cleveland has concentrated her mind orner of a seat coupon peeping from

their pocket.

Although the baseball ampitheatre, wherein will be staged tomorrow the fourth game of the 1920 world's series, holds less than 20,000 spectators fully half that number of out-of-town fans half that number of out-of-town fans are here tonight clamoring for a piace to sleep and a chance to buy a ticket at any price. Rooms are unavailable except in private houses, for every hotel is quartering more than its normal quota. Tickets can still be had but at a cost which would stagger the baseball fan of mid-summer. Single seats for Saturday's game were offered for sale at from figteen to thirty-five dollars, according to location. Despite the efforts of the olub officials to discourage the practice,

two diamond tribes are so evenly matched that with a fair distribution of basebuil breaks, each should win an equal number of battles here leaving the score four games to three in favor of the Nationals. Those who lean strongly to the balls for horse team will wir out here tionals. Those who lean strongly to the belief that home team will win out, here give the Indians three games and the Robins one, which would still send the players back to the east for the final battle. Much is expected to depend upon the manner in which the Brooklyn players react to the real world series rooting which they are sure to encounter in the coming games.
